Introduction

Purpose of the document

To describe the new functionality and issues resolved in this release.

Build Information

The TaskCentre Run MS Reporting Services Report Tool Pack 1.0 (Build 186) is a complete build of this tool for application to TaskCentre installations. This tool will now have the version number 1.0.186.0.

New Functionality

Run Microsoft Reporting Services Report Tool

This release of the Run MS Reporting Services Report Tool is the first full release.

The Run MS Reporting Services Report Tool is designed to facilitate the automatic execution, distribution and printing of reports across a range of versions which can be used in either local or server mode. Please see the Orbis Software website for information about its full capabilities.

Upgrade Instructions

Pre-requisite TaskCentre Versions

This section provides details of the builds that may be upgraded with the new release. This tool pack can be applied to Version 4.5 SR4 Hotfix I (Build 1304) installation. Any older installations of TaskCentre will need to be upgraded to this build before applying this tool pack.

Upgrade Steps

The following TaskCentre Components require upgrading with this release:-

Component	Upgrade Required
TaskCentre Server(s)	Yes
TaskCentre Clients	Yes
Data Modeller	No
SMTP Agent	No
MS SQL Server Trigger Agent	No
Oracle Trigger Agent	No
Workflow Agent	No
myTaskCentre	No
Web Service	No

N.B. **.Net 3.5 SP1** must be installed. If not the tool will not install and no error message is issued.

Run the setup.exe and follow the on screen instructions.

It is also necessary to run the TaskCentre Configurator to install the Microsoft Reporting Services Redistributables before this tool can be used.

Reporting Installation Problems

If you have any problems upgrading your current version of TaskCentre please contact Orbis Support.
